

## Brian Stein

### Director

Brian is a leader within Attevo's Customer Interaction practice. He manages teams of project managers and analysts across mobile banking implementations, and also drives web and social media strategy engagements. Brian is helping to develop professional service delivery competencies within multiple software and product companies.

Prior to his role at Attevo, Mr. Stein was Manager at Diamond Management and Technology Consultants, Inc. in Chicago, Illinois where he led multiple process improvement projects and designed and managed Program Management Offices for large scale ERP and application development programs. During his ten-year career at Diamond, Brian worked in many different areas including process optimization, program management, service delivery, organizational design, IT governance and IT management.

In addition to his career at Diamond, Brian developed strong leadership skills while working as a manager at MarchFIRST (formerly Whittman-Hart, Inc.) as well as working as a Management Consultant for CapGemini (formerly Ernst & Young LLP). He led development teams in creating Internet-based applications for multiple clients and served as technical lead for multiple development projects while supporting business processes redesign efforts.

Brian holds a Bachelor of Science in Computer Engineering from Case Western Reserve University and an MBA from the Tepper School of Business at Carnegie Mellon University with concentrations in Strategy and Information Systems. Brian also has a MSPPM in Policy Analysis and Management at the H. John Heinz School of Public Policy and Management. Brian is on the board of directors of Gross Schechter Day School.
