

John Schindler

Director

John is responsible for the delivery of infrastructure consulting services, which includes the support of Client Managed Service offerings. John has extensive experience in both operational and strategic IT planning and execution. He is also responsible for internal IT programs, infrastructure and special projects.

Prior to joining Attevo, John was the CIO for Kichler Lighting, where he was responsible for the building and re-structuring of their IT organization in support of Kichler's first integrated ERP and E-Commerce platform. While at Kichler, John received Computerworld's Best in Class, Premier 100 CIO award as well as CIO of the year for Northeast Ohio. Throughout his career, John has consulted in various industries from retail, heavy industry and wholesale distribution. These projects ranged from small privately-held companies to Fortune 100 firms. Assignments have ranged from IT Governance, Strategic Planning, Project Management, due diligence and execution of Enterprise PMOs.

John holds a Bachelor of Science in Electrical and Computer Engineering with a minor in Business and Finance from Case Western Reserve University.
